De Los Cabos

PRESIDENCIA MUNICIPAL

San José del Cabo, B.C.S. July 7th, 2009.

Dear Mr. Gustafson,

It has been a pleasure to read the draft of "Missa Brevis". You have been able to express your feelings with great initiative and with very truthful statements. It gives us a big chance to allow our future North American tourists to know what and how they will live a wonderful vacation. We are sure that Mexican tourism will also benefit from your book. You are actually promoting our tourism to come to San José del Cabo, for which we thank you very much.

Not only will they learn how beautiful San José del Cabo is, and how its inhabitants will help them through their stay. You are at the same time promoting our area with good and sensible words which will enable these tourists to learn what they will be receiving during their vacation.

We are impressed by the neatness of your Spanish throughout the whole book. It is not often that someone whose mother tongue is English, will be able to produce such good expressions as you have used. Congratulations!

With our greatest appreciation, we are,

Most respectfully yours,

Lic. René Nuñez Cosío
Mayor of Los Cabos
