Dear Mr. Gustafson,

We have appreciated your draft of "Missa Brevis" as one of the books that enhances the beauty of San José del Cabo throughout the entire writing. We also wish to remark your style and your viewing of our city in the development of the novel. This will provide tourists with veritable information about San José del Cabo and its citizens, which entails their choice for a nice family vacation.

You have been most accurate in your description of the area that San José del Cabo occupies as well as some of its nearby surroundings. We congratulate you for your talent in making this a part of "Missa Brevis" so skillfully. Again you are helping our tourism to be well-known, letting many future tourists be able to know what to expect when they visit this part of Baja California Sur.

Thanking you for the promotion you have made for us, we remain,

Most truly yours,

  
Miroslava Bautista
